## **PRESS RELEASE**

FOR IMMEDIATE RELEASE

### **First Line Technology and SWEDE announce strategic alliance to provide homeland security technologies**

**Washington, D.C. - November 11, 2003** – First Line Technology, LLC, and Swedish Emergency Disaster Equipment, AB (SWEDE), have developed a strategic relationship to distribute the SWEDE product line of decontamination and Personal Protection Equipment (PPE) in the United States. First Line Technology has the rights to market the SWEDE products to the federal government and all 50 States and territories of the United States.

This strategic alliance will provide state-of-the-art equipment to first responders and citizens across the United States. The products, that include a variety of decontamination and PPE, are currently utilized across the globe to protect against nuclear, biological and chemical attacks or incidents.

First Line Technology, LLC, offers first responders protective and decontamination equipment which includes: protective suits, NBC escape hoods, respirators, decontamination trailers, tents and heaters and a variety of equipment used for response to nuclear, biological, and chemical events. Find more information at our website <http://www.firstlinetech.com>.

Swedish Emergency Disaster Equipment, AB, is a privately held Swedish corporation founded in 1992. For the past 11 years, it has been providing disaster recovery and decontamination products and services to first responders around the world. They have also advised numerous world organizations and nations on disaster and decontamination plans.
