

WHO WE ARE

First Line Technology designs, manufactures, and supplies disaster preparedness and response equipment. We work with subject matter experts, first responders, and the military to develop innovative, simple products that makes their jobs easier and their lives – and the lives of those they serve – safer.

As an ISO 9001:2008 certified company, First Line has established itself as a leader in product development and deployment. We pride ourselves in providing cost-effective products for emergency response, support, and logistics, wherever and whenever they're needed.

FROM LAB
TO LIFESAVING

As a company, we conduct business focusing on four important qualities in hopes to provide superior customer service and paramount experience for our customers:

PEOPLE We pursue relationships with customers, suppliers, and employees, based on openness and trust and believe that people are our most valuable asset.

INTEGRITY We believe that everything we do should be grounded with integrity and that we each have the individual responsibility to do the right thing in all situations.

QUALITY We are devoted to continually improving our business and strive to exceed expectations, impress, and create value in our work.

COMMUNITY We feel we serve the community best by serving those who serve others and our products can be used to better the support they provide to their – and our – communities.

WHAT WE DO

AMBURESPONSE

When disaster strikes, first responders, and emergency personnel need tools that facilitate a fast and effective response. AmbuResponse provides solutions to evacuate, transport, and care for non-ambulatory patients with products like the AmbuBus®, AmbuCarrier®, and AmbuRamp®.

PHASECORE®

Whether you're on the front line or running into the fire, PhaseCore® personal cooling products absorb heat and provide a long-lasting cooling effect that will maintain a comfortable body temperature, reducing the chance of heat-related illness.

MEDNEX

MedNex™ products are there to provide the highest quality care from the second a first responder arrives on the scene. The next generation of medical response, MedNex™ carries products that fit into and enhance your medical response strategy to best assist the individuals you serve.

DECONTECT

Decontaminate various CBRNe materials from personnel, personal protective equipment (PPE), and infrastructure safely and easily with wet and dry DeconTect products. When seconds matter, DeconTect products work instantly and can be used together for the most efficient decontamination system.

OUR MISSION

At First Line Technology, we pledge to provide distinctive quality and unparalleled customer service as we strive to gain the respect and trust of our customers, suppliers, and partner vendors.
