

FENTANYL DECONTAMINATION KIT

THE RISE OF FENTANYL DEMANDS A PROFESSIONAL RESPONSE

Fentanyl threats are increasing, demanding an expert response. First Line Technology developed the industry-first **Fentanyl Decontamination Kit** exclusively for **Bio-One**. This kit equips Bio-One teams with all the essential components they need for safe and effective remediation.

DESTROY FENTANYL THREATS WITH DAHLGREN DECON

Our kit features Dahlgren Decon, the EPA rated best decontamination solution, enabling swift and effective responses, empowering Bio-One teams to confidently handle any contamination challenge.

CLEAN UP FAST WITH FIBERTECT WIPES

Included in the kit are FiberTect wipes, proven by US Army research as the best method for particulate removal. These wipes allow Bio-One to quickly and safely clean contaminated areas, safeguarding team PPE, and ensuring safety for everyone involved.

MAKE INFORMED DECISIONS QUICKLY WITH OPIOID DETECTION KITS (ODK)

Find out fast. Our low-cost and rapid ODK enables on-site fentanyl identification and verification of clean. This speeds up Bio-One's response, reducing risks and enhancing safety.

The First Line Technology **Fentanyl Decontamination Kit** equips Bio-One with everything they need for safe and effective remediation. Don't settle for anything less.

KIT CONTENTS

P/N: FLT-BIOONE-STARTERKIT-01

22oz Dahlgren Decon (5)

12" X 12" FiberTect Pads (50)

36" X 36" FiberTect Pads (2)

DeconKeg (1)

Opioid Detection Kit (10)

S-CUT QE (1)

3' x 3' Shuffle Pit (1)
